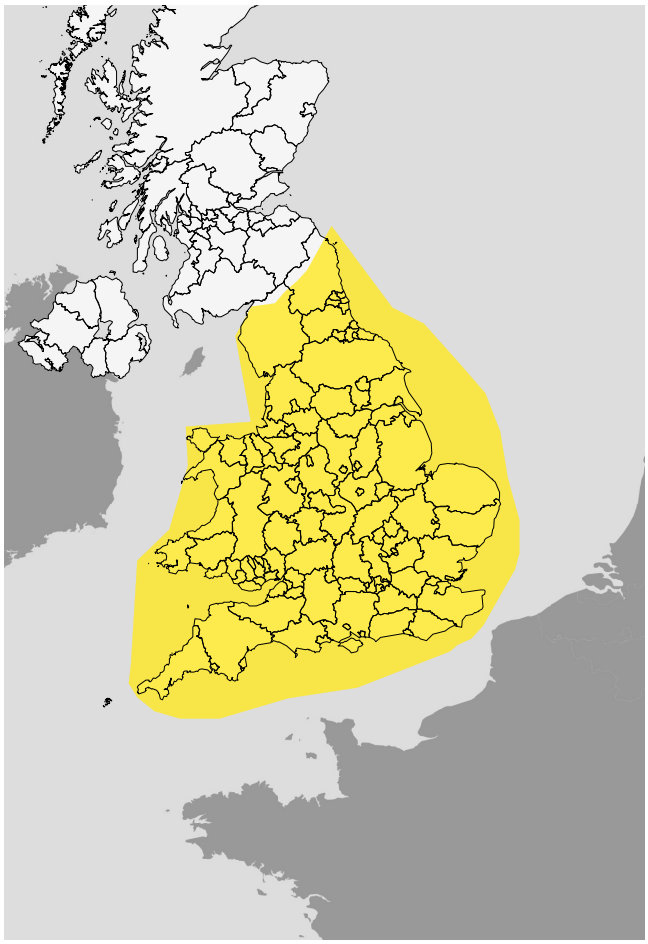
Yellow warning
Rain & Wind

Between
15:00 Fri 6 Dec 2024 and
06:00 Sun 8 Dec 2024



Strong winds and heavy rain potentially leading to some disruption.

What to expect

- There is a small chance of injuries and danger to life from flying debris
- There is a slight chance of some damage to buildings, such as tiles blown from roofs
- There is a small chance of longer journey times or cancellations as road, rail, air and ferry services are affected
- There is a small chance that some roads and bridges could close
- There is a slight chance that power cuts may occur, with the potential to affect other services, such as mobile phone coverage
- There is a small chance that injuries and danger to life could occur from large waves and beach material being thrown onto sea fronts, coastal roads and properties
- There is a small chance that homes and businesses could be flooded, causing damage to some buildings
- There is a small chance of fast flowing or deep floodwater causing danger to life
- Spray and flooding could lead to difficult driving conditions and some road closures
- There is a small chance that some communities will become cut off by flooded roads

Yellow warning
Rain & Wind

Between
15:00 Fri 6 Dec 2024 and
06:00 Sun 8 Dec 2024

Further details

A deep low may cross England and Wales from Friday afternoon, clearing to the east Saturday night. The low may bring a period of strong winds to much of the warning area, with some heavy rain likely to the north and west of the low centre, and some hill snow in the north (above about 200 metres). Around 15-25 mm of rain may fall quite widely, more particularly across central, northern and western parts of England and Wales, with exposed higher ground in the north and west (particularly parts of Wales, which are at greatest risk of seeing flooding impacts) perhaps locally seeing closer to 50-70 mm. Winds may quite widely gust to around 40-50 mph inland but locally could gust in excess of 60 mph, whilst around coasts, winds may gust to 60-70 mph, perhaps locally nearer 80 mph. The wind and rain may cause disruption to travel, with difficult driving conditions likely.

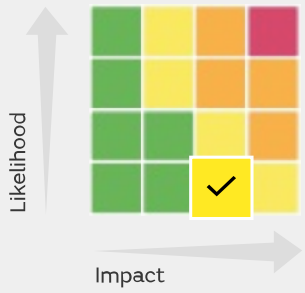
What should I do?

Prepare to protect your property and people from injury. Check for loose items outside your home and plan how you could secure them. Items include; bins, garden furniture, trampolines, tents, sheds, and fences.

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

People cope better with power cuts when they have prepared for them in advance. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

If you are on the coast, stay safe during stormy weather by being aware of large waves. Even from the shore large breaking waves can sweep you off your feet and out to sea.



Very low likelihood of medium impacts

Yellow warning
Rain & Wind

Between
15:00 Fri 6 Dec 2024 and
06:00 Sun 8 Dec 2024

Further Details (continued)

Take care if walking near cliffs; know your route and keep dogs on a lead. In an emergency, call 999 and ask for the Coastguard.

Check if your property could be at risk of flooding. If so, consider preparing a flood plan and an emergency flood kit.

Be prepared for weather warnings to change quickly: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.
